Eliminate the Friction from your Customer's Betting Experience

Customers are demanding more from their physical betting experiences.

They want a **frictionless** journey.
They want **flexible** payment options.
And they want more excitement.

But many sports betting terminals today don't meet the demand. From manual ticket processing to slow customer support from in-store staff, the betting experience is being stifled.

We're
here to
change
that.

Revolutionize Sports Betting with Whizz Autobet

Our Whizz Autobet solution is where state-of-the-art technology meets top-class hardware design to deliver a sports betting terminal that goes above and beyond your customer's expectations.

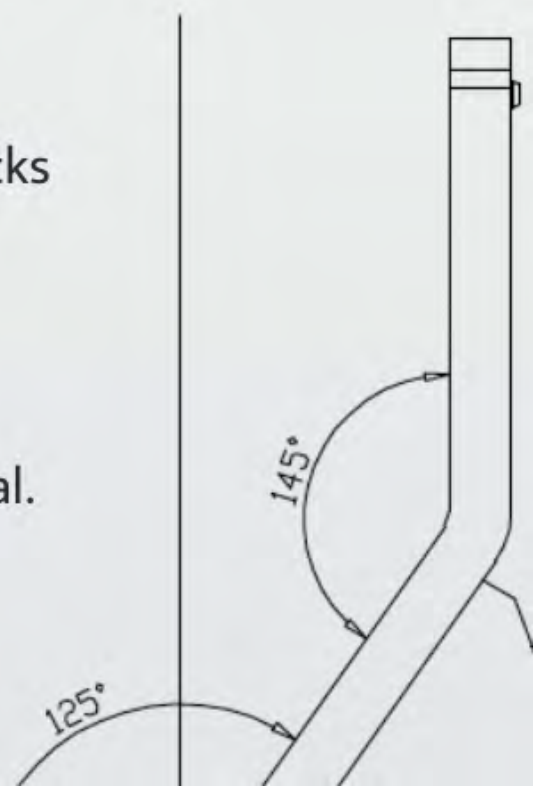

Whizz Autobet sports betting terminals reduce your costs by performing the tasks of multiple staff members, allowing you to make a greater return on each terminal. It also keeps you compliant with gambling legislation, and can even attract the younger generation with reassuring authentication and verification checks.

Deliver unforgettable experiences

- Hi-res, interactive screens instantly draw customers of all demographics.
- Flexible betting options for customers keep them entertained and engaged.
- Checking age, setting betting limits and even AML checking are automated.
- Minimal human oversight means customers get an uninterrupted experience, and your staff expenses remain low.

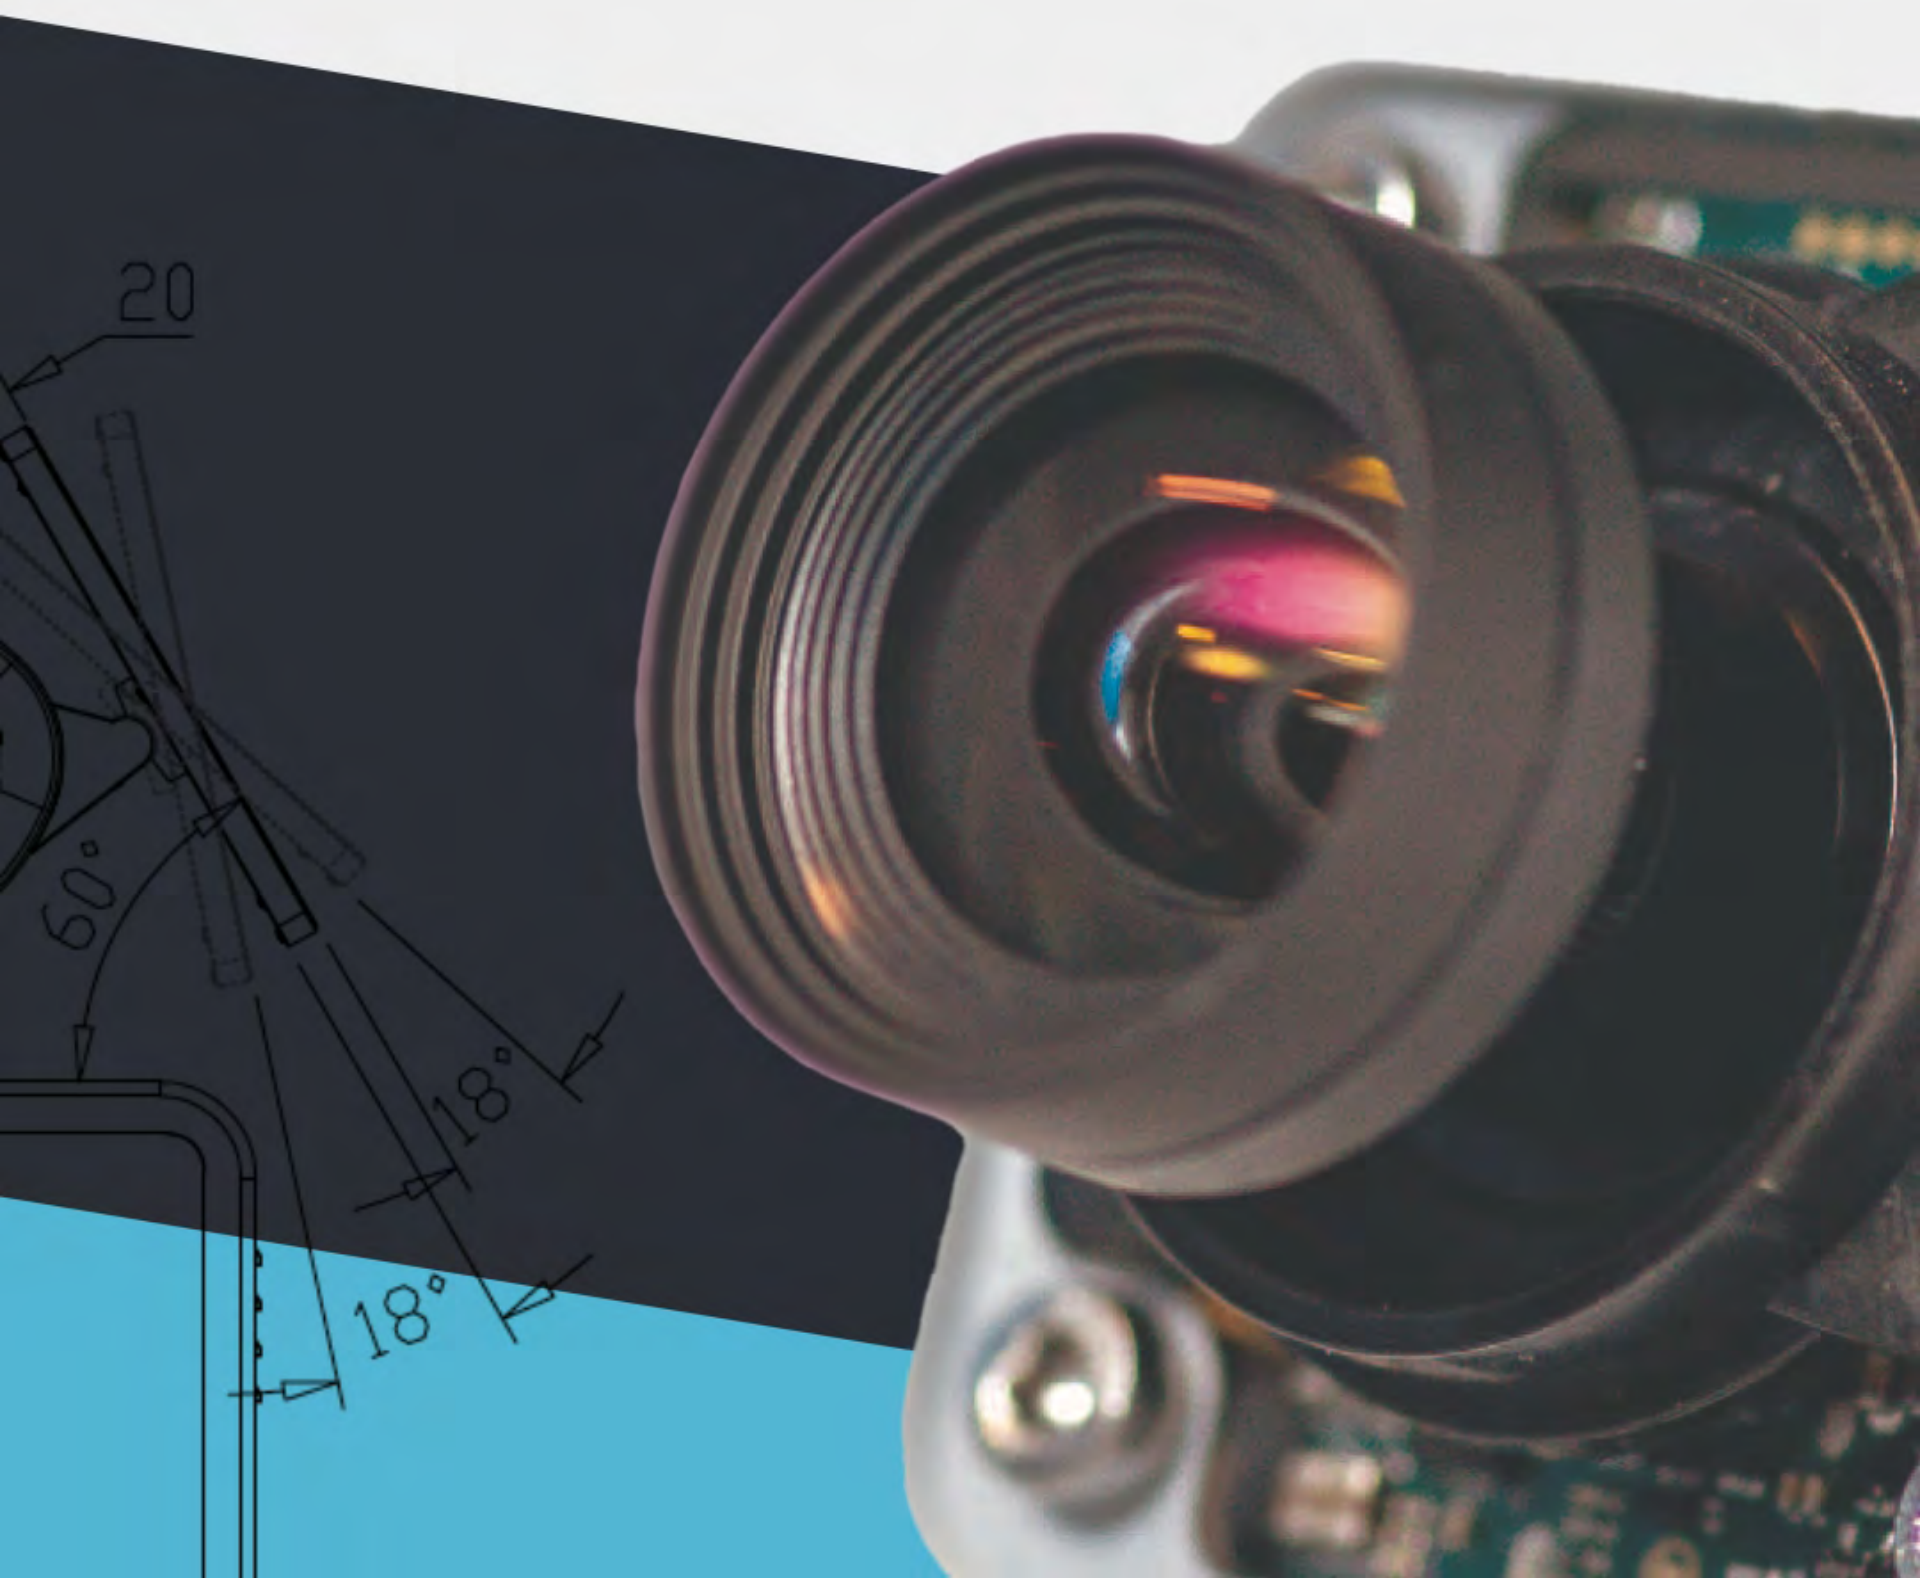

Protect your business and your customers

- Compliant and future-proofed to always meet gambling legislation requirements.
- Exceptionally robust and safe, with an inbuilt metal safe and anti-drill lock.
- **Check-21 age verification** is completed by the facial recognition software.
- **Facial recognition** tailors experiences and blocks barred customers and problem gamblers.
- **Anti-money laundering (AML)** thresholds can automatically trigger checks, withholding customer service until completion and approval.

Creating World-Class Betting Terminals that Work for You

Whizz Autobet is designed with you in mind. Whether you need a completely automated system that cuts out the need for staff entirely or you want to complement your staffed shops with cutting-edge technology, we can supply you with the bespoke sports betting terminal you need for your business.

Whizz Autobet Does It All

Choosing a Whizz Autobet terminal for your shop won't just serve you today and tomorrow.

It'll serve you for years to come.

Key features:

- ✓ Barcode scanner
- ✓ Print receipts
- ✓ Contactless payment
- ✓ Card payment reader
- ✓ Cash and coin acceptance
- ✓ TITO system

Automation and build, customized to your needs

We understand that one-size-does-not-fit-all when it comes to finding a sports betting kiosk solution.

That's why we've baked customization into our design, build and deployment processes. All our kiosks can be adjusted or modified to suit your needs, thanks to the modular components we use to build them.

550
477

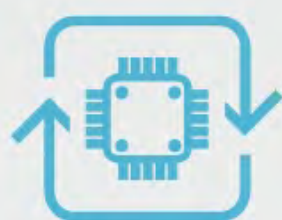

930
916

These are just some of the ways we can tailor our kiosks to your business:

Powder paint and silk screen branding

Choose two RAL paint colors from the entire spectrum to design your kiosk and place your logo anywhere you like.

Windows and Linux compatibility

We don't tie you down to a single operating system. Instead, our kiosks are built to work with both systems so you always have flexibility.

Non-agnostic hardware terminals

We don't design for specific brands and product lines. We customize them to work with the add-ons that work for you.

Our team of skilled engineers is committed to manufacturing the best bespoke terminals in the industry out of our state-of-the-art manufacturing facility.
